Venice, *October* 9. The Senate having resolved to put their Frontier Places in *Dalmatia* into a good condition of Defence, Orders are accordingly sent to General *Mocenigo*, who commands their Forces in that Province, to take care that the Fortifications of the said Places be repaired and augmented, and the Magazines suppli'd with Stores, as shall appear to him to be necessary for their Security. We have Letters from *Smyrna* of the 10th of the last Month, which give an Account, that five *Turkish* Men of War were gone to *Egypt*, and that seven more, under the Command of the Captain-Bassa *Mezzomorto*, were sailed towards *Scio* to receive the Tribute of that and the neighbouring Islands which are under the *Turkish* Dominion. Three *Turkish* Galleys lay near the *Dardanelles*, who had Orders to receive on board Signior *Soranzo*, the *Venetian* Ambassador, and his Retinue, on their arrival there, and to carry them to *Constantinople*; It being agreed, that the *Venetian* Men of War which convoy his Excellency, shall not enter within the *Dardanelles*. We have Advice from *Constantinople* of the 30th of *August*, that the Grand Signior was daily expected there from *Andrinople*, part of his Seraglio being already arrived; That Count *Teckely* was in Disgrace, and had received Orders from the Port to retire from *Constantinople* to *Baba-Dagi*, a small Place on the *Black-Sea*, from whence he is not to remove without express Leave from the Sultan. That a Body of 4000 Spahi's and 15000 Janizaries were ordered to march to *Asia*, under the Command of the Bassa of *Natolia*, to suppress the Rebellion of the *Arabs* near *Babylon*, who continue together in very great Numbers, and have as it were besieged the *Turkish* Troops in those Parts, who not being able to keep the Field, are intrenched under the Walls of *Babylon*. These Advices add, that an Envoy Extraordinary from *Muscovy* was arrived at the Port with the Czar's Ratifications of the Truce of Two Years, lately concluded between him and the Sultan at *Carlowitz*, and that an Ambassador Extraordinary from the Czar was shortly expected. An Envoy frow the Republick of *Ragusa* was likewise come to *Andrinople*.

Dantzick, *October*. 10. Two Regiments of the King of *Poland*'s *Saxon* Forces are lately arrived in these Parts, and several others are shortly expected, who will be employed in building a Fortress between *Polangen* and *Heiligena* for the Defence and Security of this Coast. They write from *Warsaw* of the 2d Instant, that the Senate were to meet in a fortnight to consider of the Means to give the Elector of *Brandenburgh* satisfaction, about the Payment of the Money due to him from the Crown of *Poland*, that so his Electoral Highness may evacuate the City of *Elbing*, pursuant to the Agreement lately concluded between the King of *Poland*'s Ministers, and his Electoral Highness's Resident. They write from *Lemberg*, that the City of *Caminieck* was not yet evacuated, by reason of a Dispute concerning the *Greeks* who were settled there, the *Turks* desiring they may continue in possession of their Churches, and in the free Exercise of their Religion, which the *Polanders* will not consent to.

The Margrave of *Bareith* is also come hither, and the Queen of *Poland* is expected here to morrow. The Magistrates of this City would have waited on the King at some distance from the Town, but he desired to come privately, by reason his Publick Reception might have been uneasie to this City in the time of the great Fair, which is held here at present, and occasions a great Concourse of Strangers.
